

How to register to be able to apply for the priority online shopping slots:

Get coronavirus support as a clinically extremely vulnerable person

Register with this service if either:

- you have a medical condition which means you're classed as being clinically extremely vulnerable to coronavirus
- you've been told by your GP or hospital clinician that you're clinically extremely vulnerable and need to 'shield'

You have one of the listed medical conditions if you:

- have had a solid organ transplant
- have any cancer and are getting chemotherapy
- have lung cancer and are getting radical radiotherapy
- have cancer of the blood or bone marrow, at any stage of treatment - for example, leukaemia, lymphoma or myeloma
- have any cancer for which you're getting immunotherapy or other continuing antibody treatments
- have any cancer for which you're getting a targeted treatment which can affect the immune system - for example, protein kinase inhibitors or PARP inhibitors
- have had bone marrow or stem cell transplants in the last 6 months, or are still taking immunosuppression drugs
- have a severe respiratory condition - including cystic fibrosis, severe asthma or severe COPD (Chronic Obstructive Pulmonary Disease)
- have a rare disease or inborn error of metabolism that significantly increases your risk of infection - for example SCID or homozygous sickle cell
- are getting an immunosuppression therapy that's sufficient to significantly increase your risk of infection
- are pregnant, and have a significant congenital or acquired heart disease

'Shielding' means not leaving your home and minimising contact with other members of your household.

You'll be able to ask for help if you need it - for example, with getting essential supplies or your basic care needs.

You can register yourself, or on behalf of someone else.
